About Me

As a Re: coded Boot-camp graduate, I am an enthusiastic Junior Front End Developer with expertise in HTML, CSS, JavaScript, and React. I excel at teamwork, have a passion for creating visually appealing and user-friendly websites, and continuously seek to enhance my skills and stay updated on the latest web development technologies.

Education

Frontend Web Development - Re:Coded

Sept 2022 – Jan 2023

Re: Coded Immersive bootcamps is highly competitive, with a 5% acceptance rate.

- Completing a 4.5-month immersive web development bootcamp, with 300+ hours of curricula and project-based learning
- Technologies: HTML, CSS, JavaScript, React
- Working with various development teams to create products across industries.

Projects

iTherapy - [DEMO](#) | [CODE](#)

Re:coded Capstone Project

This project aims to:

- Connecting therapists and counselors with those in need
- Information about mental health services

The following technologies were used:

- React.js
- TailwindCSS
- Flowbite React Components
- DaisyUI
- Firebase

Working with the team to solve real-world problems has given me

- Practical skills and knowledge that will be valuable in any professional environment.
- Collaboration with a team on a complex project, ensuring alignment and consistent communication. Actively participated in meetings, provided progress updates, and remained open to feedback. Tracked deadlines and milestones to maintain accountability and achieve project success.
